

IMPORTANT

ADVISORY

DO NOT BEGIN DEMOLITION OF ANY KIND UNTIL BUILDING PERMITS HAVE BEEN OBTAINED FROM THE CITY OF LAGUNA WOODS.

State law requires the City to enforce the California Building Standards Code, which contains statewide standards for the design, construction/improvement, and demolition of buildings and structures. Please contact the City's Planning & Environmental Services Department at (949) 639-0500 to discuss building permit requirements.

Waiting to begin demolition until after you have obtained all necessary building permits will help to ensure that you are able to advance to the construction phase of your project without delay. Certain types of demolition also require you to obtain building permits in advance.
