ITEM 6.1 – Attachment B

10,021,401 persons infected with COVID-19, worldwide, as of June 29, 2020, to 23,057,288 persons infected, worldwide, as of the WHO's August 24, 2020 COVID-19 Weekly Epidemiological Update. (*) At the time of purchase and until September 2017, CDs were rated or ranked using an IDC Financial Publishing, Inc. (IDC) compiled ranking, and includes a one-number summary rank of quality comprised of 35 key financial ratios. Ranks range from 1 (the lowest) to 300 (the highest) and fall into one of the following six groups per Table 1. Post September 2017, CDs are ranked using the Veribanc Rating System, a two-part color code and star classification system which tests the present standing and future outlook by reviewing an institution's capital strength, asset quality, management ability, earnings sufficiency, liquidity, and sensitivity to market risk. Table 2 below summarizes the Veribanc color rankings. Veribanc star ratings of one to three, with three being best, are used to help review a possible future trend of an institutions health based on metrics from ten prior quarters. A rating of one, two, or three, are not necessarily an indicator of risk or an undesirable investment. The City reviews other rating systems and issuer financials before choosing any investment.

Table 1: CD Rankings (used prior to September 2017)

IDC Rank	Group Meaning
200-300	Superior
165-199	Excellent
125-164	Average
75-124	Below Average
2-74	Lowest Ratios
1	Highest Probability of Failure

Table 2: Veribanc Color Rankings (used post September 2017)

Veribanc Rank	Color Meaning
Green	Highest rating, exceeds qualifications in equity and income tests
Yellow	Merits attention, meets minimal qualifications in equity and income tests
Red	Merits close attention, does not meet minimal qualifications for equity and has incurred significant losses

ITEM 6.5

INDEMNITEES may become subject by reason of or arising out of any injury to or death of any person(s), damage to property, loss of use of property, economic loss or otherwise occurring as a result of the CONSULTANT's performance of or failure to perform any services under this AGREEMENT or by the negligent or willful acts or omissions of CONSULTANT, its agents, officers, directors, subcontractors or employees, committed in performing any of the services under this AGREEMENT, including without limitation the violation of any federal, state, and local law, statute, code, ordinance, regulation, or rule.

In recognition of that interest, CONSULTANT shall not assign or transfer this Agreement or any portion of this AGREEMENT or the performance of any of CONSULTANT's duties or obligations under this AGREEMENT without the prior written consent of the City Council. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this AGREEMENT entitling CITY to any and all remedies at law or in equity, including summary termination of this AGREEMENT. CITY acknowledges, however, that CONSULTANT, in the performance of its duties pursuant to this AGREEMENT, may utilize subcontractors. CONSULTANT shall be solely liable and responsible for the actions, conduct, and performance of subcontractors, including but not limited to ensuring their compliance with

SECTION 19. TERMINATION OF AGREEMENT.

(a) CITY may terminate this AGREEMENT, with or without cause, at any time by giving thirty (30) days written notice of termination to CONSULTANT. In the event such notice is given, CITY may require CONSULTANT to cease immediately all work in progress.

(c) If CONSULTANT fails to perform any material obligation under this AGREEMENT, then, in addition to any other remedies, CITY may terminate this AGREEMENT immediately upon written notice.

(d) Upon termination of this AGREEMENT by either CONSULTANT or CITY, all property belonging exclusively to CITY which is in CONSULTANT's possession shall be returned to CITY immediately upon demand by CITY, notwithstanding any billing disputes that may then exist under this AGREEMENT. CONSULTANT shall furnish to CITY a final invoice for work performed and expenses incurred by CONSULTANT, prepared as set forth in SECTION 4 of this AGREEMENT. This final invoice shall be reviewed and paid in the same manner as set forth in SECTION 4 of this AGREEMENT.

SECTION 20. DEFAULT.

In the event that CONSULTANT is in default under the terms of this AGREEMENT, the CITY shall not have any obligation or duty to continue compensating CONSULTANT for any work performed after the date of default and may terminate this AGREEMENT immediately by written notice to the CONSULTANT.

SECTION 21. EXCUSABLE DELAYS.

CONSULTANT shall not be liable for damages, including liquidated damages, if any, caused by delay in performance or failure to perform due to causes beyond the control of CONSULTANT. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state, or local governments, court orders, fires, floods, epidemics, strikes, embargoes, and unusually severe weather. The term and price of this AGREEMENT shall be

equitably adjusted for any delays due to such causes.

SECTION 22. COOPERATION BY CITY.

All public information, data, reports, records, and maps as are existing and available to CITY as public records, and which are necessary for carrying out the work as outlined in the EXHIBIT "A" "SCOPE OF SERVICES", shall be furnished to CONSULTANT in a reasonable way to facilitate, without undue delay, the work to be performed under this AGREEMENT.

SECTION 25. BINDING EFFECT.

This AGREEMENT shall be binding upon the heirs, executors, administrators, successors and assigns of the parties.

SECTION 26. MODIFICATION OF AGREEMENT.

No amendment to or modification of this AGREEMENT shall be valid unless made in writing and approved by the CONSULTANT and by the City Council or City Manager of CITY. The parties agree that this requirement for written modifications cannot be waived and that any attempted waiver shall be void.

SECTION 27. WAIVER.

Waiver by any party to this AGREEMENT of any term, condition, or covenant of this AGREEMENT shall not constitute a waiver of any other term, condition, or covenant. GENERAL REQUIREMENTS

The following apply to all senior mobility transportation services:

1. CONSULTANT shall maintain a fleet of at least 50 individual vehicles and 50 individual drivers, each capable of being placed into service concurrently, and at least five of which shall be vans equipped with wheelchair lifts that are capable of transporting four or more passengers. Demand for the SMP may change over time and CONSULTANT shall be required to meet such demand without interruption. This minimum fleet and driver size requirement is meant to provide reasonable assurance that CONSULTANT is able to manage a larger operation and also possesses accessibility-minded vehicles.
2. CONSULTANT shall provide SMP transportation services 24-hours per day, seven-days per week, without exception (please note that all holidays are included).
3. CONSULTANT shall provide a 24-hour, seven-days per week call center available by calling a toll-free telephone number (a toll-free "800" telephone number and/or an area code "949" telephone number). Only one call center shall be provided; CONSULTANT shall not routinely "rollover" or link multiple call centers.
4. CONSULTANT shall utilize a two-way radio (or equivalent) voice dispatching system that allows for rapid voice communication to and from CONSULTANT's call center and individual vehicles. This system may be supplemented with, but not replaced by, data-based systems.
5. CONSULTANT's drivers shall pick-up every passenger within 45 minutes of the call center receiving a request (this requirement pertains to the time that a request is received and not the time that a request is dispatched to drivers).
6. CONSULTANT's drivers shall assist any passenger who requests assistance entering or exiting the vehicle. This may include, but is not limited to, assisting with wheelchairs, walkers, canes, and other mobility or medical assistive devices.
7. CONSULTANT shall not comingle routes. Only residents who are scheduled to travel (and up to two guests who shall be permitted to travel at no additional cost) shall occupy a single vehicle. CONSULTANT's drivers shall not transport passengers other than the resident who is scheduled to travel and their guests, nor make any unrequested stops.

ITEM 6.5

8. Every vehicle used by CONSULTANT shall have a taxi meter with a current approval and inspection by the California Department of Weights and Measures.
9. No form of tip or other gratuity shall be required as a condition of transportation. CITY will not discourage residents from offering tips subject to their sole personal discretion.
10. CONSULTANT's vehicles shall be generally uniform in appearance and bear its name and logo in a prominent location on all sides thereof.
11. CONSULTANT's vehicles shall be cleaned daily prior to each vehicle service day and shall be kept clean throughout the day. Vehicle exteriors shall be washed not less than once per week, and after any rain or other circumstances that compromise the vehicle's clean appearance. Floors shall be free of paper or other debris and gum or other wet or sticky substances. Windows shall be free of dirt, dust, smudges, hands and fingerprints, on both the exterior and interior. Dashboards, rails and ledges shall be kept clean and free of dirt and grease. Seating areas shall be kept clean and in good repair with attention paid to cleaning upholstery on a regular basis, except for wet or sticky spills, which shall be cleaned immediately. Wheelchair lifts (if applicable) shall be kept clean and in good repair. CITY reserves the right to, at its sole discretion, require CONSULTANT to remove from service any vehicle that does not meet its standards.
12. CONSULTANT shall designate a single, primary point-of-contact for CITY to forward complaints to. That person, or his or her designee whose contact information shall be provided to CITY, in writing, in advance of assuming the primary point-of-contact role, shall be available by telephone or email 24-hours, seven days per week, and shall also be available for in-person meetings in the city of Laguna Woods with 12 hours' notice.
 - a. Within 24 hours of each forwarded complaint, CONSULTANT's primary point-of-contact shall contact the complainant to resolve the problem. Within 48 hours of each forwarded complaint, CONSULTANT's primary point-of-contact shall provide CITY with a written summary of the complaint and steps taken to resolve it. CONSULTANT shall continue to generate such documentation until the complaint is resolved to the satisfaction of CITY. CITY reserves the right to, at its sole discretion, require CONSULTANT to remove from service any driver or vehicle due to a complaint or the finding of subsequent investigation and resolution.
13. CONSULTANT's invoices shall be submitted to CITY on a monthly basis using the formats in EXHIBIT "D" "REQUIRED INVOICE FORMATS", together with any additional or supplemental information that CITY may require including, at a minimum, all redeemed and voided (see number 18 below) Taxi Bucks and travel vouchers. Invoicing requirements may change at CITY's sole discretion.
14. CONSULTANT shall maintain records of each trip and provide the same to CITY upon request. At a minimum, CONSULTANT must document the name of the person who requested pick-up, his or her telephone number, the pick-up and drop-off addresses, the

ITEM 6.5

date and time that the request was received by CONSULTANT's call center, the time that the request was dispatched by CONSULTANT to its drivers, the name of the driver who provided service, and the time pick-up occurred. Recordkeeping requirements may change, at CITY's sole discretion.

15. CONSULTANT shall report to CITY, in writing, any out of the ordinary incident that occurs during trips, inclusive of arrival, passenger entrance and exit, and transportation (e.g., disputes between drivers and passengers, disputes between passengers, failure of passengers to provide proper travel vouchers, and passenger misconduct). Such reports shall be submitted to CITY no later than 48 hours following each incident. At a minimum, such report shall include a summary of the incident and trip information (see number 14 above). CITY reserves the right to require additional reporting at its sole discretion.
16. CONSULTANT shall report to CITY, in writing, any incident involving passenger injury or vehicle damage that occurs during trips, inclusive of arrival, passenger entrance and exit, and transportation. Such report shall be submitted to CITY immediately and, in no case, later than 24 hours following the incident. At a minimum, such report shall include a summary of the incident and trip information (see number 14 above). CITY reserves the right to require additional reporting at its sole discretion.
17. CONSULTANT's drivers shall require at least one passenger to present a valid CITY-issued Senior Mobility Program identification card for the purpose of confirming that individual's participation in the Senior Mobility Program. No transportation shall be provided without a valid Senior Mobility Program identification card.
18. CONSULTANT's drivers shall void all Taxi Bucks and travel vouchers redeemed by residents by punching a hole therein upon redemption. CONSULTANT's drivers shall not accept any voided Taxi Bucks or travel vouchers, nor shall CONSULTANT invoice CITY for any trips erroneously made using voided Taxi Bucks or travel vouchers.
19. CITY prints Taxi Bucks and travel vouchers with an expiration date (currently 30 days after the end of each July 1 through June 30 fiscal year, but subject to change at CITY's sole discretion). CONSULTANT's drivers shall not accept any expired Taxi Bucks or travel vouchers, nor shall CONSULTANT invoice CITY for any trips erroneously made using expired Taxi Bucks or travel vouchers.
20. CONSULTANT, all of its drivers, and all of its vehicles shall hold and maintain all applicable Orange County Taxi Administration Program (OCTAP) permits.
21. CONSULTANT shall provide all services on an as-needed basis. This AGREEMENT does not state, convey, imply or infer a specific, minimum or expected amount of work or compensation, nor have any representations been made to the contrary. CITY relies on third-party funding to support the Senior Mobility Program and reserves the right and

ITEM 6.5

sole discretion to change, modify, or cancel it at any point with or without notice to CONSULTANT.

22. As relates to the novel coronavirus (COVID-19) pandemic, CONSULTANT shall require its drivers to comply with applicable federal, state, and county public health orders and mandatory guidance including, but not limited to, orders and guidance concerning the use of face coverings and safe operation of transportation services.

City of Laguna Woods Agenda Report

TO: Honorable Mayor and City Councilmembers
FROM: Christopher Macon, City Manager
FOR: September 16, 2020 Regular Meeting
SUBJECT: False Security System Alarm Fees

Recommendation

1. Receive staff report.

AND
2. Open public hearing.

AND
3. Receive public testimony.

AND
4. Close public hearing.

AND
5. Adopt a resolution entitled:

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS, CALIFORNIA, ADOPTING AN INCREASED FALSE SECURITY SYSTEM ALARM FEE, AND DETERMINING THAT THE FEE IS EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

Background

The County of Orange's practice is to charge fees to recover the reasonable costs of the Orange County Sheriff's Department's response to the third and subsequent false security system alarms at the same residence or business in a calendar year, as well as for response to intentionally set false security system alarms. For unincorporated areas, the Orange County Board of Supervisors adopts such fees.

Cities that receive law enforcement services from the Orange County Sheriff's Department have the option of adopting similar false security system alarm fees as the County of Orange charges in unincorporated areas. If adopted, those fees are collected by the County of Orange and passed through to cities as a credit against law enforcement costs. In Laguna Woods, the existing false security system alarm fee is \$85, as adopted by the City Council in May 2009 (Resolution No. 09-10).

State law prohibits the City from charging fees in excess of its reasonable costs (in this case, its law enforcement-related costs). While the City may charge less than its reasonable costs, the practical implication of doing so is that subsidies would then be borne by taxpayers as law enforcement resources are diverted to respond to repeated or intentionally set false security system alarms at the City's expense.

Discussion

At today's meeting, the City Council will conduct a public hearing regarding a proposed increase of the false security system alarm fee (Attachment A). After the public hearing, adoption will be considered. Staff recommends that the City Council adopt the proposed fee schedule with an effective date of October 5, 2020.

The proposed fee schedule would increase the false security system alarm fee from \$85 to \$141 per response. The proposed \$141 fee is based on an Orange County Sheriff's Department cost study that calculated the reasonable cost of responding to applicable false security system alarms (Attachment B) and the Orange County Board of Supervisor's subsequent adoption of a fee for such response, including findings of compliance with Section 1(e)(2) of Article XIII C of the California Constitution (Attachment C).

As is the case in unincorporated areas, the false security system alarm fee is only charged in the following circumstances:

- For the Orange County Sheriff's Department's response to the third and subsequent false security system alarms at the same residence or business in a calendar year; and
- For the Orange County Sheriff's Department's response to an intentionally set false security system alarm.

The false security system alarm fee is charged to homeowners and businesses responsible for security systems. In Laguna Woods, the majority of false security system alarms resulting in fees being charged have involved business properties.

Environmental Review

This action is not subject to the California Environmental Quality Act (Pub. Resources Code, Sec. 21000 et seq.) ("CEQA") pursuant to sections 15060(c)(2) (the activities will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activities are not a project as defined in section 15378) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3. CEQA Guideline section 15378(b)(4) excludes "government funding mechanisms or other government fiscal activities" from its definition of "project" when they "do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment," as is the case here. Even if this action were subject to CEQA, it would be categorically exempt under CEQA Guideline section 15273, which applies to the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges by the City, when such charges are for the purpose of (1) meeting operating expenses, including employee wage rates and fringe benefits, and (2) purchasing or leasing supplies, equipment, or materials – as is the case with the false security system alarm fee. Finally, this action is exempt from CEQA based on CEQA Guideline section 15061(b)(3) because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Fiscal Impact

As proposed, the false security alarm fee would increase by \$56 (or, approximately 66%) to recover the City's reasonable costs associated with the Orange County Sheriff's Department's response to false security system alarms. While the number of false security system alarms resulting in fees being charged has historically been

low, the recommendation would nonetheless result in a small amount of additional revenue to offset law enforcement costs.

According to information obtained from the Orange County Sheriff's Department, in Fiscal Year 2018-19 there were 21 false security system alarms resulting in fees being charged, for a total invoiced amount of \$1,785. At the proposed \$141 fee, the total invoiced amount would have been \$2,961 (an increase of \$1,176). In Fiscal Year 2019-20, there were 11 false security system alarms resulting in fees being charged, for a total invoiced amount of \$935. At the proposed \$141 fee, the total invoiced amount would have been \$1,551 (an increase of \$616).

Once fees are collected, the County of Orange passes 100% of the revenue through to the City as a credit against law enforcement costs two years in arrears. For the current fiscal year's law enforcement services, the City received a credit of \$1,785.

RESOLUTION NO. 20-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS, CALIFORNIA, ADOPTING AN INCREASED FALSE SECURITY SYSTEM ALARM FEE, AND DETERMINING THAT THE FEE IS EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

WHEREAS, pursuant to applicable California law, cities may charge rates or fees that are equal to or less than the reasonably anticipated costs of providing a service, conferring a benefit, granting a privilege, performing regulatory duties, enforcing laws, or as a condition of property development; and

WHEREAS, the City charge fees to recover the reasonable costs of the Orange County Sheriff’s Department’s response to the third and subsequent false security system alarms at the same residence or business in a calendar year, as well as for response to an intentionally set false security system alarm, which costs would otherwise be incurred by the City; and

WHEREAS, the Orange County Sheriff’s Department prepared a cost study dated June 2020 that calculated the reasonable cost of responding to applicable false security system alarms in the amount of \$141; and

WHEREAS, on July 28, 2020, via Resolution No. 20-106, the Orange County Board of Supervisors adopted a false security alarm fee based on the aforementioned Orange County Sheriff’s Department cost study and, in doing so, made findings of compliance with Section 1(e)(2) of Article XIIC of the California Constitution; and

WHEREAS, the City Council conducted a duly noticed public hearing at its regular meeting on September 16, 2020 regarding the proposed adoption of an increased false security system alarm fee; and

WHEREAS, public noticing for the aforementioned public hearing included publication in the *Laguna Woods Globe*; and

WHEREAS, the fee that is included on the False Security System Alarm Services Fee Schedule attached hereto as Exhibit A was made available to the public at and from Laguna Woods City Hall, as well as on the City’s website, beginning on August 31, 2020; and

WHEREAS, after consideration of the information provided by City staff, the attachments to the agenda report for the September 16, 2020 public hearing, the City’s costs to provide false security system alarm response services, and all public comments and testimony received, the City Council finds that it is in the best interest of the City to adopt an increased fee for false security system alarms.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS, CALIFORNIA DOES HEREBY RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The False Security System Alarms Fee Schedule attached hereto as Exhibit A is hereby adopted to be effective beginning on October 5, 2020. In adopting such fee, the City Council finds that the amount of the fee does not exceed the reasonable costs of providing the services for which the fee is charged.

SECTION 2. Upon the effective date of the False Security System Alarm Services Fee Schedule attached hereto as Exhibit A, all previous false security system alarm services fees adopted by resolution of the City Council shall be repealed including, without limitation, Resolution No. 09-10.

SECTION 3. After reviewing the entire project record, the City Council hereby determines and certifies that this action is not subject to the California Environmental Quality Act (Pub. Resources Code, Sec. 21000 et seq.) (“CEQA”) pursuant to sections 15060(c)(2) (the activities will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activities are not a project as defined in section 15378) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3. CEQA Guideline section 15378(b)(4) excludes “government funding mechanisms or other government fiscal activities” from its definition of “project” when they “do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment,” as is the case here. Even if this action were subject to CEQA, it would be categorically exempt under CEQA Guideline section 15273, which applies to the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges by the City, when such charges are for the purpose of (1) meeting operating expenses, including employee wage rates and fringe benefits, and (2) purchasing or leasing supplies, equipment, or materials – as is the case with the false security system alarm fee. Finally, this action is exempt from CEQA based on CEQA Guideline section 15061(b)(3) because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

SECTION 4. The City Clerk shall certify to the adoption of this resolution.

PASSED, APPROVED AND ADOPTED on this XX day of XX 2020.

ORANGE COUNTY, CALIFORNIA

July 28, 2020

WHEREAS, by Resolution No. 88-527, the Board of Supervisors established a fee in the amount of \$30.00 for the Sheriff's Department's response to false security system alarms; and

WHEREAS, by Resolution No. 00-336, the Board of Supervisors increased said fee to \$64.00 to reflect full cost recovery; and

WHEREAS, by Resolution No. 08-157, the Board of Supervisors increased said fee to \$85.00 to reflect full cost recovery; and

WHEREAS, the Sheriff's Department is proposing to further increase the fee charged for response to the third and subsequent false security system alarms at the same residence or business in a calendar year or response to an intentionally set false alarm so as to effect full recovery of the direct costs of responding to such false alarm;

RESIDENTIAL DENSITY BONUS STANDARDS
REGULATIONS

This page is intentionally blank.

City of Laguna Woods

Agenda Report

TO: Honorable Mayor and City Councilmembers

FROM: Christopher Macon, City Manager

FOR: September 16, 2020 Regular Meeting

SUBJECT: Residential Density Bonus Standards Regulations

Recommendation

Approve second reading and adopt an ordinance – read by title with further reading waived – entitled:

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS, CALIFORNIA, AMENDING SECTION 13.26.040 OF THE LAGUNA WOODS MUNICIPAL CODE RELATED TO RESIDENTIAL DENSITY BONUS STANDARDS AND OTHER INCENTIVES FOR HOUSING DEVELOPMENTS WITHIN, OR FOR THE DONATION OF LAND FOR HOUSING WITHIN, THE CITY'S JURISDICTION, CONSISTENT WITH CALIFORNIA GOVERNMENT CODE SECTION 65915 ET SEQ.

Background

California Government Code Section 65915 et seq., requires every city and county to adopt an ordinance providing density bonuses (the ability to construct more housing units in a particular area than would otherwise be permitted) and other incentives or concessions to persons wishing to develop affordable housing projects and senior housing projects. Cities and counties have very limited abilities to withhold density bonuses, namely instances in which doing so would create a specific, adverse impact upon the public health or safety. In enacting density bonus laws, the California Legislature has held that affordable housing projects and senior housing projects are of public value, but may be financially infeasible without incentives and concessions.

Section 13.26.040 of the Laguna Woods Municipal Code (Attachment B) contains regulations related to residential density bonus standards and other incentives for housing developments within, or for the donation of land for housing within, the City's jurisdiction, consistent with California Government Code Section 65915 et seq. Those regulations were last amended in February 2013.

On August 19, 2020, a public hearing was held and the City Council introduced and approved the first reading of an ordinance (Attachment A) which, if adopted, would amend regulations related to residential density bonus standards regulations.

Discussion

Today's meeting is an opportunity for City Council action, as well as public input, on proposed residential density bonus standards regulations (Attachment A). Staff recommends that the City Council adopt the proposed ordinance in order to help ensure clarity and consistency with state law.

The following legislation was chaptered into state law subsequent to the City Council's adoption of the existing residential density bonus standards regulations:

- Senate Bill 1227 (Density bonuses.)
- Assembly Bill 2753 (Density bonuses: density bonus application.)

Irrespective of whether or not the City Council adopts the proposed ordinance, state law requires the City to comply with existing density bonus law, including the amendments codified by Senate Bill 1227 and Assembly Bill 2753.

The proposed ordinance would delete regulations that are now outdated as a result of the enactment of Senate Bill 1227 and Assembly Bill 2753. To provide greater clarity and potentially reduce the need for significant amendments in the future as a result of prospective changes in state law, the proposed ordinance would also add new language directly referencing state law and incorporating future amendments and changes thereto. The proposed ordinance provides for only the density bonuses required by state law; no additional or enhanced density bonuses are included.

If the City Council takes the recommended action at today's meeting, the proposed ordinance would become effective in 30 days.

Environmental Review

It can be seen with certainty that this project has no possibility of having a significant effect on the environment. In the absence of any pending application for any housing development that might implicate density bonus considerations, any specific environmental effects, apart from those already assessed in the City's General Plan and Housing Element review, would be speculative. Therefore, the adoption of the ordinance is not a project subject to the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of Title 14 of the California Code of Regulations.

Fiscal Impact

Funds to support this project are included in the City's budget.

ORDINANCE NO. 20-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS, CALIFORNIA, AMENDING SECTION 13.26.040 OF THE LAGUNA WOODS MUNICIPAL CODE RELATED TO RESIDENTIAL DENSITY BONUS STANDARDS AND OTHER INCENTIVES FOR HOUSING DEVELOPMENTS WITHIN, OR FOR THE DONATION OF LAND FOR HOUSING WITHIN, THE CITY'S JURISDICTION, CONSISTENT WITH CALIFORNIA GOVERNMENT CODE SECTION 65915 ET SEQ.

WHEREAS, California Government Code Section 65915 et seq., requires every city and county to adopt an ordinance providing density bonuses and other incentives or concessions to persons wishing to develop affordable housing projects and senior housing projects; and

WHEREAS, residential density bonus standards regulations are codified, in part, at Section 13.26.040 of the Laguna Woods Municipal Code, with the goal of providing incentives for the production of housing for very low, lower income, or senior households in accordance with California Government Code Section 65915 et seq.; and

WHEREAS, the City Council last amended the residential density bonus standards regulations on February 21, 2018 by Ordinance No. 18-03; and

WHEREAS, the California Legislature has amended California Government Code Sections 65915 et seq. several times since the City enacted its existing residential density bonus standards regulations, including Senate Bill 1227 and Assembly Bill 2753, California Statutes of 2018; and

WHEREAS, the City Council desires to comply with state law, and likewise encourage the provision of affordable housing and senior housing in accordance with state guidelines, provided that such housing does not create a specific, adverse impact upon the public health or safety; and

WHEREAS, staff has recommended amendments of the Laguna Woods Municipal Code as set forth in the attached Exhibit A to this Ordinance (the "Code Amendments") which, if adopted, would help to ensure that regulations are clear and consistent with state law, including the aforementioned legislation; and

WHEREAS, the Community Development Director or his or her designee prepared an exhibit, including proposed language and terminology for the proposed Code Amendments and any additional information and documents deemed necessary for the City Council to take action, and such exhibit was available for public inspection at City Hall and, upon request, was supplied to all persons desiring a copy, at least 10 days prior to the scheduled City Council public hearing date; and

WHEREAS, on August 19, 2020, the City Council held a duly noticed public hearing on the proposed Code Amendments at which it considered all of the information, evidence, and testimony presented, both written and oral.

THE CITY COUNCIL OF THE CITY OF LAGUNA WOODS DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. The City Council hereby finds and determines that (i) each of the recitals to this Ordinance are true and correct, and are adopted herein as findings; (ii) the Code Amendments comply with all applicable requirements of State law; (iii) the Code Amendments will not adversely affect the health, safety, or welfare of the residents within the community; (iv) the Code Amendments are in the public interest of the City of Laguna Woods; and, (v) the Code Amendments are consistent with the Laguna Woods General Plan and its various elements.

SECTION 2. After reviewing the entire project record, the City Council hereby determines and certifies that it can be seen with certainty that this project has no possibility of having a significant effect on the environment. In the absence of any pending application for any housing development that might implicate density bonus considerations, any specific environmental effects, apart from those already assessed in the City’s General Plan and Housing Element review, would be speculative. Therefore, the adoption of the ordinance is not a project subject to the California Environmental Quality Act (“CEQA”) pursuant to Section 15061(b)(3) of Title 14 of the California Code of Regulations.

SECTION 3. Section 13.26.040 of the Laguna Woods Municipal Code is hereby amended to read as set forth in Exhibit A, attached to this Ordinance and incorporated herein by this reference.

SECTION 4. This Ordinance shall take effect and be in full force and operation thirty (30) days after adoption.

SECTION 5. If any section, subsection, subdivision, paragraph, sentence, clause, or phrase added by this Ordinance, or any part thereof, is for any reason held to be unconstitutional or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the validity of effectiveness of the remaining portions of this Ordinance or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause, or phrase thereof irrespective of the fact that any one or more subsections, subdivisions, paragraphs sentences, clauses, or phrases are declared unconstitutional, invalid, or ineffective.

SECTION 6. The City Clerk shall certify to the passage of this Ordinance and shall cause this Ordinance to be published or posted as required by law.

SECTION 7. All of the above-referenced documents and information have been and are on file with the City Clerk of the City.

(20) *Affordable dwelling unit* means a dwelling unit within a residential development project that is reserved for sale or rent and offered at an affordable housing cost, as defined in California Health and Safety Code sections 50052.5 and 50053 (as amended or superseded), to persons and families of very low, lower, and moderate income.

(25) *Child care facility* means a child day care facility other than a family day care home, including, but not limited to, infant centers, preschools, extended day care facilities, and school age child care centers.

(30) *Density bonus* means those additional residential units granted which exceed the maximum allowable gross residential density for the development site.

(35) *Maximum allowable gross residential density* means the maximum number of residential units permitted by this zoning code and the land use element of the City's General Plan at the time of application, excluding the units added by a density bonus.

(40) *Median gross household income* means the median income level for the City of Laguna Woods, as established and defined in the annual schedule published by the Secretary of the U.S. Department of Housing and Urban Development, adjusted for household size.

(45) *Renovation* means physical improvement that adds to the value of real property, but that excludes painting, ordinary repairs, and normal maintenance.

(50) *Residential development* means the entire proposal to construct or place one or more dwelling units on a particular lot or contiguous lots including, without limitation, a planned unit development, parcel map, site plan, or subdivision.

(d) California Government Code Section 65915 adopted by reference. California Government Code Section 65915 (and any future amendments thereto), a copy of which may be obtained from the City Clerk for use and examination by the public, is adopted and incorporated herein by reference

as if fully set forth, and shall constitute the affordable housing density bonus regulations of the City.

~~(c) — *Eligibility for bonus and incentives.* To be eligible for a density bonus and other incentives as provided by this section, a proposed residential development project shall:~~

~~(1) — Consist of five or more dwelling units; and~~

~~(2) — Include one or more of the following within the development:~~

~~a. — 10 percent of the total dwelling units reserved for lower income households, as defined in California Health and Safety Code Section 50079.5;~~

~~b. — Five percent of the total dwelling units reserved for very low income households, as defined in California Health and Safety Code Section 50105;~~

~~c. — A senior citizen housing development, as defined in California Civil Code sections 51.3 and 51.12, or a mobilehome park that limits residency based on age requirements for housing for older persons pursuant to California Civil Code sections 798.76 or 799.5;~~

~~d. — 10 percent of the total dwelling units in a common interest development, as defined in California Civil Code Section 4100, reserved for persons and families of moderate income, as defined in California Health and Safety Code Section 50093, provided that all units in the development are offered to the public for purchase; or~~

~~e. — 10 percent of the total units of a housing development for transitional foster youth, as defined in California Education Code Section 66025.9, disabled veterans, as defined in California Government Code Section 18541, or homeless persons, as defined in the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.). The units described in this subparagraph shall be subject to a recorded affordability restriction of 55 years and shall be provided at the same affordability level as very low income units.~~

~~f.—When an applicant for approval of a commercial development has entered into an agreement for partnered housing to contribute affordable housing through a joint project or two separate projects encompassing affordable housing, the commercial developer may be entitled to a development bonus as prescribed in California Government Code Section 65915.7.~~

~~(d)—Types of bonuses and incentives allowed. A residential development project that satisfies all relevant provisions of this section shall be entitled to a density bonus and one or more incentives described below. If the density bonus units cannot be accommodated on a parcel due to strict compliance with the provisions of this section, the City Council shall waive or modify development standards to accommodate the density bonus units and/or grant the incentives to which the development would be entitled pursuant to this section, unless such waiver, modification or incentive would have a specific adverse impact, as defined herein, upon health, safety, or the physical environment, and for which there is no feasible method to mitigate or avoid the specific adverse impact.~~

~~(1)—Minimum density bonus. The minimum density bonus granted to a residential development project that is eligible for a density bonus pursuant to this section shall be equal to at least:~~

~~a.—A 20 percent increase in density, when the development meets the requirements of subsection (c)(2) (a) or (b) of this section;~~

~~b.—For housing developments meeting the criteria of subsection (c)(2)(c) of this section, the density bonus shall be 20 percent of the number of senior housing units;~~

~~c.—For housing developments meeting the criteria of subsection (c)(2)(e) of this section, the density bonus shall be 20 percent of the number of the type of units giving rise to a density bonus under that subparagraph;~~

~~d.—A five percent increase in density, when the development meets the requirements of subsection (c)(2)(d) of this section;~~

~~e.—A 15 percent increase in density, when an applicant for a residential development project donates land to the City in accordance with the requirements of California Government~~

~~Code Section 65915(g)(1); and (2) of sufficient acreage to permit construction of units affordable to very low income households equal to at least 10 percent of the total dwelling units. Nothing in this section shall be construed to enlarge or diminish the authority of the City to require a developer to donate land as a condition of development; or~~

~~f.—The City may, in its discretion, grant a density bonus that is proportionately greater than that described in subsections (d)(1) a. through c. of this section for a development that meets the requirements therein, or proportionately lower than that described in subsections (d)(1) a. through c. of this section for a development that does not meet the requirements therein.~~

~~(2)—Additional density bonus. A residential development project that satisfies all relevant provisions of this section and that includes affordable housing units in excess of the base percentage established in subsection (c)(2) of this section shall be entitled to an additional density bonus and one or more incentives described below. The amount of density bonus to which an applicant is entitled shall vary according to the amount by which the percentage of affordable housing units exceeds the base percentage established in subsection (c)(2) of this section. The amount of density bonus for a donation of land shall vary according to the amount by which the donation exceeds the base donation established by California Government Code Section 65915(g).~~

~~a.—Lower income households. For each one percent increase above 10 percent in the percentage of units affordable to lower income households, the density bonus shall be increased by one and one-half percent.~~

~~b.—Very low income households. For each one percent increase above five percent in the percentage of units affordable to very low income households, the density bonus shall be increased by two and one-half percent.~~

~~c.—Moderate income households. For each one percent increase above 10 percent in the percentage of units affordable to moderate income households in a condominium project or a~~

~~planned development, the density bonus shall increase by one percent.~~

~~d.—*Donation of land.* The density bonus shall be increased by one percent for each one percent increase in the donation of land above the minimum 10 percent requirement of subsection (d)(1) e of this section. Nothing in this section shall be construed to enlarge or diminish the authority of the City to require a developer to donate land as a condition of development.~~

~~(3)— The density bonus units shall not be included when determining the total number of dwelling units in the residential development project. All calculations resulting in fractional units shall be rounded up to the next whole number. In no event shall the City be required to grant more than a 35 percent increase over the otherwise maximum allowable residential density under the applicable provisions of this code and the land use element of the City’s General Plan. The density bonus percentages available pursuant to the requirements of this section are shown in the following table:~~

Density Bonus Percentages

	Qualifying Percentage (of total units)	Minimum Density Bonus (above maximum allowable density)	Increase in Density Bonus (for each 1% over qualifying percentage)
Very Low	5%	20%	2.5%
Lower	10%	20%	1.5%
Moderate (Common Interest Developments)	10%	5%	1%

Senior Citizen	n/a	20%	n/a
Transitional-Foster Youth, Disabled-Veterans, or Homeless-Persons	n/a	20%	n/a
Donation (Very-Low Income-Housing)	10%	15%	1%

~~(4) — Incentives — Number. An eligible residential development project shall receive the incentives described in subsection (d)(5) of this section, as follows:~~

~~a. — Lower income households. An applicant shall receive:~~

- ~~i. — One incentive for a residential development project in which at least 10 percent of the total dwelling units are reserved for lower income households;~~
- ~~ii. — Two incentives for a residential development project in which at least 20 percent of the total dwelling units are reserved for lower income households; and~~
- ~~iii. — Three incentives for a residential development project in which at least 30 percent of the total dwelling units are reserved for lower income households.~~

~~b. — Very low income households. An applicant shall receive:~~

- ~~i. — One incentive for a residential development project in which at least five percent of the total dwelling units are reserved for very low income households;~~
- ~~ii. — Two incentives for a residential development project in which at least 10 percent of the total dwelling units are reserved for very low income households; and~~

~~iii.—Three incentives for a residential development project in which at least 15 percent of the total dwelling units are reserved for very low income households.~~

~~c.—Moderate income households in common interest developments. An applicant shall receive:~~

~~i.—One incentive for a residential development project in which at least 10 percent of the total dwelling units are reserved for persons and families of moderate income in a condominium project or a planned development;~~

~~ii.—Two incentives for a residential development project in which at least 20 percent of the total dwelling units are reserved for persons and families of moderate income in a condominium project or a planned development; and~~

~~iii.—Three incentives for a residential development project in which at least 30 percent of the total dwelling units are reserved for persons and families of moderate income in a condominium project or a planned development.~~

~~(5)—Incentives—Description. A residential development project that is eligible to receive incentives pursuant to subsection (d)(4) of this section shall be entitled to the following incentives in the number specified in subsection (d)(4) of this section:~~

~~a.—A reduction in the applicable development standards (e.g., coverage, setback, zero lot line and/or reduced parcel sizes, and/or parking requirements).~~

~~b.—Approval of mixed use zoning in conjunction with the housing project if nonresidential land uses would reduce the cost of the housing project, and the nonresidential land uses would be compatible with the housing project and adjoining development.~~

~~c.—Other regulatory incentives or concessions proposed by the applicant or the City that would result in identifiable cost reductions.~~

~~(6) — Nothing in this section shall be construed to require the City to provide, or limit the City’s ability to provide, direct financial incentives for housing developments, including the provision of publicly owned land by the City or the waiver of fees and dedication requirements.~~

~~(7) — *Limitations and Exceptions.*~~

~~a. — In order to receive incentives as described in subsections (d)(4) and (5) of this section, an applicant must submit a proposal to the City requesting the specific incentives that the applicant desires.~~

~~b. — The City shall grant the eligible incentives requested by the applicant pursuant to subsection (d)(7) a. of this section and required pursuant to subsection (d)(4) of this section, unless the City makes a written finding, based upon substantial evidence, of either of the following:~~

~~i. — The incentive is not required in order to provide for affordable housing costs, as defined in California Health and Safety Code sections 50052.5 and 50053; or~~

~~ii. — The incentive would have a specific adverse impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low and moderate income households. As used in this subsection, a “specific adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified-written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.~~

~~c. — The City’s granting of an incentive shall not be interpreted, in and of itself, to require a general plan amendment, zoning change, or other discretionary approval.~~

~~d.— Nothing in this section shall be interpreted to require the City to waive or reduce development standards or to grant an incentive that would have a specific adverse impact upon health, safety or the physical environment for which there is no feasible method to mitigate or avoid the specific adverse impact; nor shall this subsection require the City to waive or reduce development standards or to grant an incentive that would have an adverse impact on any real property that is listed in the California Register of Historical Resources.~~

~~e.— The affordable units shall be generally dispersed throughout the residential development project and shall not differ in appearance from the other dwelling units in the project.~~

~~(e) — Continued affordability — Equity sharing.~~

~~(1) — Before the issuance of a building permit for any dwelling unit in a development for which density bonus units have been awarded or incentives have been granted pursuant to this section, the developer shall identify the affordable units and shall enter into a written covenant with the City to guarantee one or both of the following, as applicable:—~~

~~a.— Low and very low income households: The low and very low income units shall continue to be offered and available at an affordable housing cost, as defined in California Health and Safety Code sections 50052.5 and 50053, for a minimum of 55 years, which 55-year restriction shall survive the sale or transfer of the units.~~

~~b.— An equity sharing agreement will be required indicating that upon resale, the seller of the unit shall retain the value of any improvements, the down payment, and the seller's proportionate share of appreciation. Upon resale, the City shall recapture its proportionate share of appreciation, which shall be equal to the percentage by which the initial sale price of the unit to the person or family was less than the fair market value of the unit at the time of initial sale. The City shall spend such recaptured funds within five years for the construction, rehabilitation, or preservation of affordable housing for very~~

~~low, low and moderate income persons or families, as described in California Health and Safety Code Section 33334.2(e).~~

~~c.—The terms and conditions of the covenant required by subsection (e)(1) a. of this section and the equity sharing agreement required by subsection (e)(1) b. of this section shall run with the land which is to be developed, shall be binding upon the successor(s) in interest of the developer, and shall be recorded in the county recorder’s office. In addition to the requirements described in subsections (e)(1) a. and b. of this section, the covenant or agreement shall include the following provisions:–~~

~~i.—The City shall have a continuing right of first refusal to purchase or lease any or all of the affordable units at the current fair market value; and–~~

~~ii.—The deeds to the affordable units shall contain a covenant stating that the owner shall not sell, rent, lease, sublet, assign, or otherwise transfer any interests for same without the written approval of the City confirming that the sell or rental price of the unit is consistent with the limits established by this section for lower, very low and moderate income persons and families; and–~~

~~iii.—The City shall have the authority to enter into other agreements with the developer or purchasers of the affordable units, as may be necessary to ensure that the lower and very low income units are continuously occupied by persons or families of lower and very low income.–~~

~~(f) — *Child care facilities.*–~~

~~(1) —When an applicant proposes to construct a residential development project described in subsection (c) of this section that includes a child care facility located on the premises of, as part of, or adjacent to the project, the City shall grant either of the following:–~~

~~a.—An additional density bonus that is an amount of square feet of residential space that is equal to or greater than the amount of square feet in the child care facility.–~~

~~b.—An additional incentive that contributes significantly to the economic feasibility of the construction of the child care facility, as determined by the City in its discretion.—~~

~~(2)—The City shall require, as a condition of approving the residential development project, that the following occur:—~~

~~a.—The child care facility shall remain in operation for a period of time that is as long as or longer than the period of time during which the affordable units are required to remain affordable pursuant to subsection (e) of this section.—~~

~~b.—Of the children who attend the child care facility, the children of very low, lower and moderate income households shall equal a percentage that is equal to or greater than the percentage of dwelling units that are required for very low, lower or moderate income households pursuant to subsection (e)(2) of this section.—~~

~~(3)—Notwithstanding subsections (f)(1) and (2) of this section, the City shall not be required to provide a density bonus or incentive for a child care facility if it finds, based upon substantial evidence, that the community has adequate child care facilities.—~~

~~(g)—*Condominium conversions.*—~~

~~(1)—An applicant shall be eligible for either a density bonus or other incentives or concessions of equivalent financial value in accordance with state law if the applicant for a conversion of existing rental apartments to condominiums agrees to provide 33 percent of the total units of the proposed condominium project as target units affordable to households with moderate incomes or less, or to provide 15 percent of the total units in the condominium conversion project as target units affordable to lower income households. All such target units shall remain affordable for the period specified in the density bonus housing agreement.—~~

~~(2)—For purposes of this subsection, a density bonus means an increase in units of 25 percent over the number of units to be provided within the existing structure or structures proposed for conversion.—~~

~~(3) — No condominium conversion shall be eligible for a density bonus if the apartments proposed for conversion constitute a housing development for which a density bonus or other incentives or concessions were previously provided pursuant to this section or Government Code Section 65915.~~

~~(h)~~ *Processing of bonus request.*

(1) *Permit required.* Residential development projects that include a request for a density bonus and/or incentive pursuant to this section shall require the approval of a conditional use permit, which shall be approved by the City Council, provided, however, that in no event shall City Council withhold approval of a density bonus to which an affordable housing development is entitled to under state law.

(2) *Initial review of density bonus request.* The director shall notify the applicant whether the application is complete within 30 days of filing the application, in a manner consistent with [California Government Code Section 65943](#). The director shall notify the applicant within 90 days of the filing of the conditional use permit application whether the residential development project qualifies for the density bonus and incentives described in this section.

(3) *Criteria to be considered.* Criteria to be considered in analyzing a request for a density bonus shall include whether the applicant has agreed to construct affordable units that meet the requirements of ~~subsection (e) of this section~~ [California Government Code Section 65915\(k\)](#). Criteria to be considered in analyzing a requested incentive shall include whether an incentive has a specific adverse impact upon health, safety or the physical environment, and whether there is no feasible method to eliminate or mitigate such specific adverse impact.

(4) The applicant shall enter into an agreement with the City or its designee to maintain and enforce the affordable housing component of the housing development.

(5) An application for a density bonus permit will not be processed until all of the provisions of this section are complied with as determined by the director and shall be processed concurrently with other required entitlements, if applicable.

(6) *Required documents.* All applications for a density bonus, developer incentive, or waiver or modification of development standards must include the following information:

- a. A description of the project, including the number of dwelling units, the number of affordable units and level of affordability, and the location of the affordable units;
- b. The specific developer incentive(s) sought, if any, and documentation regarding the necessity of the incentive in order to provide affordable housing costs or rents;
- c. The specific waiver or modification to development standard(s), if any, and documentation regarding the necessity of the waiver or modification, including documentation demonstrating that the City’s development standards physically preclude the utilization of a density bonus;
- d. For parking standard modification requests, that the requirements of ~~subsection (i) of~~ this section are met;
- e. The proposed method of ensuring the continued affordability of all low, very low, or moderate units, or senior units, transitional foster youth, disabled veterans, homeless, or child care facilities, that qualified the applicant for the award of the density bonus for at least 55 years, as required by California Government Code Section 65915(c)(1);
- f. For the application for a density bonus permit for the donation of land, the application must show the location of the land in addition to including sufficient information to establish that each requirement California Government Code Section 65915(g)(2) has been met;
- g. The application for a density bonus permit for a development that includes a child care facility that will be located on the premises of, as part of, or adjacent to, the project (California Government Code Section 65915(b)), shall show the location and square footage of the child care facility in addition to including sufficient information as how the applicant proposes to regulate attendance at the child care

facility to conform to the requirements of California Government Code Section 65915(h)(2)(B).

- h. Other relevant information requested by City staff.
- i. An application for a density bonus permit shall be accompanied by the fee set by resolution of the City Council.
- j. If an application for a density bonus permit requires an unusual amount or specialized type of study or evaluation by City staff, a consultant or legal counsel, City staff shall estimate the cost thereof and require the applicant to pay an additional fee or make one or more deposits to pay such cost before the study or evaluation is begun. On completion of the study or evaluation, and before the City Council decides the application, City staff shall determine the actual cost of the work and the difference between the actual cost and the amount paid by the applicant, and shall require the applicant to pay any deficiency or shall refund to the applicant any excess.

(7) *Findings for approval.* In addition to the findings required for the approval of a conditional use permit, the following additional findings must be made for the approval of a density bonus:

- a. The residential development project would not be a hazard or nuisance to the city at large or establish a use or development inconsistent with the goals and policies of the City's General Plan;
- b. The number of dwelling units can be accommodated by existing and planned infrastructure capacities;
- c. Adequate evidence exists to ensure that the development of the property would result in the provision of affordable housing in a manner consistent with the purpose and intent of this section;
- d. In the event that the City does not grant at least one incentive described in ~~subsection (d)(5) of this section~~ [California Government Code Section 65915\(k\)](#), that additional concessions or incentives are not necessary to provide housing

at an affordable housing cost, as defined in California Health and Safety Code sections 50052.5 and 50053; and

e. There are sufficient provisions to guarantee that the lower and very low income units will remain affordable in the future.

~~(i) — Vehicular parking ratio.~~

~~(1) — Upon approval of a density bonus application and at the request of the developer, the City may only require the following maximum parking space requirements, except where noted under subsection (i)(2) of this section:~~

~~a. — Zero to one bedroom: one onsite parking space~~

~~b. — Two to three bedrooms: two onsite parking spaces~~

~~c. — Four or more bedrooms: two and one half parking spaces~~

~~(2) — Exceptions. Upon request of the applicant, the following maximum parking standards shall apply, inclusive of disabled and guest parking, to the entire housing development subject to this section, as required by California Government Code Section 65915(p)(2):~~

~~a. — A maximum of 0.5 parking spaces per bedroom shall apply when all the following conditions apply:~~

~~i. — The development includes the maximum percentage of low or very low income units provided for in subsection (d)(3) of this section.~~

~~ii. — The development is located within 0.5 mile of a major transit stop, as defined in California Public Resources Code Section 21155(b).~~

~~iii. — There is unobstructed access to the major transit stop from the development. A development shall have unobstructed access to a major transit stop if a resident is able to access the major transit stop without encountering natural or constructed impediments.~~

ITEM 8.1 – Exhibit A to Attachment A

~~b. — A maximum of 0.5 parking spaces per unit shall apply when all the following conditions apply:~~

~~i. — The development consists solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, as provided in California Health and Safety Code Section 50052.5.~~

~~ii. — The development is located within 0.5 mile of a major transit stop, as defined in California Public Resources Code Section 21155(b).~~

~~iii. — There is unobstructed access to the major transit stop from the development. A development shall have unobstructed access to a major transit stop if a resident is able to access the major transit stop without encountering natural or constructed impediments.~~

~~c. — A maximum of 0.5 parking spaces per unit shall apply when all the following conditions apply:~~

~~i. — The development consists solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, as provided in California Health and Safety Code Section 50052.5.~~

~~ii. — The development is for individuals who are 62 years of age or older and which complies with California Civil Code sections 51.2 and 51.3.~~

~~iii. — The development shall have either paratransit service or unobstructed access, within 0.5 mile, to fixed-bus route service that operates at least eight times per day.~~

~~d. — A maximum of 0.3 parking spaces per unit shall apply when all the following conditions apply:~~

~~i. — The development consists solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, as provided in California Health and Safety Code Section 50052.5.~~

~~ii.—The development is a special needs housing development, as defined in California Health and Safety Code Section 51312.~~

~~iii.—The development shall have either paratransit service or unobstructed access, within 0.5 mile, to fixed bus route service that operates at least eight times per day.~~

~~(3)—If the total number of parking spaces required for the qualified housing development is other than a whole number, the number shall be rounded up to the next whole number. For purposes of this section, “on-site parking” may be provided through tandem parking or uncovered parking, but not through on-street parking.~~

~~(4)—An applicant may request additional parking incentives beyond those provided in this section if applied for pursuant to subsection (d) of this section (Government Code Section 65915(p)(3)).~~

~~(5)—Notwithstanding allowances in subsection (i)(2) of this section, if the City or an independent consultant has conducted an area-wide or jurisdiction-wide parking study in the last seven years, then the City may impose a higher vehicular parking ratio not to exceed the ratio described in subsection (i)(1) of this section, based on substantial evidence found in the parking study that includes, but is not limited to, an analysis of parking availability, differing levels of transit access, walkability access to transit services, the potential for shared parking, the effect of parking requirements on the cost of market-rate and subsidized developments, and the lower rates of car ownership for low and very low income individuals, including seniors and special needs individuals. The City shall pay the costs of any new study. The City shall make findings, based on a parking study completed in conformity with this paragraph, supporting the need for the higher parking ratio.~~

ECONOMIC SECURITY ACT FUNDING

City of Laguna Woods Agenda Report

TO: Honorable Mayor and City Councilmembers
FROM: Christopher Macon, City Manager
FOR: September 16, 2020 Regular Meeting
SUBJECT: Coronavirus Aid, Relief, and Economic Security Act Funding

Recommendation

Authorize the City Manager to implement and administer a COVID-19 Home Electric Utility Subsidy Program using Coronavirus Aid, Relief, and Economic Security Act funding to provide financial assistance to lower-income residents who are at least 65 years of age with increased electric utility costs as a result of complying with COVID-19-related public health measures.

Background

The City will receive \$347,649 in Coronavirus Aid, Relief, and Economic Security (“CARES”) Act funding (in addition to \$33,713 in Community Development Block Grant CARES Act funding). According to United States Department of the Treasury guidance, CARES Act funds can only be used for expenditures that:

1. Are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (“COVID-19”);
2. Were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act); and
3. Were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.

CARES Act funds cannot be used to fill the City’s revenue shortfalls.

At present, staff anticipates that at least \$80,000 in CARES Act funds could be allocated for COVID-19-related subsidy programs assisting residents who have been financially impacted by COVID-19, including as a result of complying with related public health measures (e.g., California Department of Public Health and Orange County Health Officer guidance advising older adults to remain at home).

Discussion

Today's meeting is an opportunity for City Council action, as well as public input, on a proposed COVID-19 Home Electric Utility Subsidy Program. A summary of the proposed program is included as Attachment A. Staff recommends that the City Council provide the requested authorizations to the City Manager in order to allow for the implementation and administration of the proposed program.

If the City Council takes the recommended action, staff would anticipate releasing an approximately 30-day call for applications within the coming week. The time required to review applications would likely vary based on the completeness of the applications received; however, staff would endeavor to complete an initial review of each application within 10 days. Subsidy payments would be approved by the City Manager and awarded on a "first-qualifying, first awarded" basis.

In developing the proposed program, staff reviewed guidance issued by the United States Department of the Treasury. The Department's "Coronavirus Relief Fund Frequently Asked Questions" document, updated as of September 2, 2020, reads in part: *"Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the [government] to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services."*

Staff also consulted with California Department of Finance staff who indicated that the proposed program appears to be CARES Act-eligible provided the City is able to document the necessity of the subsidy payments.

After subsequent communication with California Department of Finance staff and internal review, City staff determined that necessity could be documented based on one or more household members being subject to and complying with California

Department of Public Health and Orange County Health Officer guidance advising older adults to remain at home, income (extremely low, very low, or low income based on United States Department of Housing and Urban Development limits), and year-over-year electric utility costs following the onset of COVID-19 (subsidy payments limited to increased costs only). With older adults remaining at home more often than they would have otherwise, the use of air conditioning, lighting, and other electric-powered items may have increased, creating heightened financial burdens of particular challenge for lower-income residents. The use of electricity is necessary for older adults to be able to remain at home during COVID-19, thus facilitating compliance with COVID-19-related public health measures.

Fiscal Impact

Sufficient CARES Act funds are available to support the proposed program. The specific amount of funding available would vary based on the extent of the City's other CARES Act-eligible expenditures, but is currently anticipated to be at least \$80,000. Staff would only award subsidy payments as funding allows.

To maximize the direct public benefit of the CARES Act funds, existing staff and General Fund resources would be used to implement and administer the proposed program. CARES Act funds would only be used to provide subsidy payments.

COVID-19 Home Electric Utility Subsidy Program

Proposed Program Summary

Qualifying Laguna Woods households are invited to apply to receive a subsidy payment for increased electric utility costs (monies paid to Southern California Edison) incurred between March 1, 2020 and August 31, 2020 as a result of complying with COVID-19-related public health measures. This COVID-19 Home Electric Utility Subsidy Program is made possible with the assistance of Coronavirus Aid, Relief, and Economic Security Act funding.

Households will likely qualify if (1) they have lived at the same address in Laguna Woods since at least August 1, 2019 and (2) one or more household members were at least 65 years of age prior to August 1, 2020 and (3) the combined income of all household members for the 2019 calendar year was equal to or less than the following federal limits:

- \$71,750 for one-person households;
- \$82,000 for two-person households; or
- \$92,250 for three-person households.

City staff will calculate the amount of the subsidy payment that households are eligible to receive by reviewing electric utility bills. The maximum subsidy payment is equal to the difference between the current and prior year's electric utility costs for each month that one or more of the members of the household were 65 years of age or older.
