(\*) At the time of purchase and until September 2017, CDs were rated or ranked using an IDC Financial Publishing, Inc. (IDC) compiled ranking, and includes a one-number summary rank of quality comprised of 35 key financial ratios. Ranks range from 1 (the lowest) to 300 (the highest) and fall into one of the following six groups per Table 1. Post September 2017, CDs are ranked using the Veribanc Rating System, a two-part color code and star classification system which tests the present standing and future outlook by reviewing an institution's capital strength, asset quality, management ability, earnings sufficiency, liquidity, and sensitivity to market risk. Table 2 below summarizes the Veribanc color rankings. Veribanc star ratings of one to three, with three being best, are used to help review a possible future trend of an institutions health based on metrics from ten prior quarters. A rating of one, two, or three, are not necessarily an indicator of risk or an undesirable investment. The City reviews other rating systems and issuer financials before choosing any investment.

Table 1: CD Rankings (used prior to September 2017)

IDC Rank	Group Meaning
200-300	Superior
165-199	Excellent
125-164	Average
75-124	Below Average
2-74	Lowest Ratios
1	Highest Probability of Failure

Table 2: Veribanc Color Rankings (used beginning in September 2017)

Veribanc Rank	Color Meaning
Green	Highest rating, exceeds qualifications in equity and income tests
Yellow	Merits attention, meets minimal qualifications in equity and income tests
Red	Merits close attention, does not meet minimal qualifications for equity and has incurred significant losses
