

CYNTHIA S. CONNERS

Councilmember

I have worked to improve conditions and programs for the people of Laguna Woods since 2007, first as President and Director of Third Mutual, then on City Council, including four terms as Mayor. In my past life, I enjoyed eleven years of service and leadership as an Army officer. I have been a licensed attorney in California since 1983, seeking justice, and helping people and organizations resolve disputes.

I believe that character counts. I serve the people with integrity, transparency, compassion, and respect. Today, when much of government is in conflict, I do the people's business with dignity and civility.

Our main priority is public safety, accounting for nearly half of our general budget. I am proud of our low crime rate, and our planned new fire station on Moulton Parkway. We have a brand new Library. For non-drivers, our golf cart paths cover the City, and our improved discounted taxi rides cover the County, and go all the way to the Long Beach Veteran's Hospital. Our budgets are balanced and finances transparent, and the City has no debt.

The future of our City, and our residents, will be ensured by continuing our careful, thoughtful management. Thank you for voting.
